

What a fantastic start to the school year Nursery have made. We have enjoyed getting to know all of our peers through lots of circle time games, starting our morning and afternoon by singing 'hello' to all of our friends and we are beginning to remember each other's names and play alongside one another too. We have enjoyed exploring our classroom and all of the wonderful and exciting toys in it. Our home corner has kept us all busy ironing clothes, doing the washing, cooking and looking after babies!

This has also helped our learning in our topic 'This is Me'. We have enjoyed a series of activities with our adults that have helped us learn more and more about ourselves, what we look like and how we feel. We began the term by looking at ourselves in the mirror and finding our facial features, then we moved onto painting self-portraits and even decorating wooden spoons to look just like us! We thought our grass heads were very fun to make too, our potted grass is now in our garden for us to look after and watch grow even more!

We got very good at the actions and Makaton signs to our topic book 'Guess How Much I Love You' during term 1 and spent lots of time pretending to be Little Nutbrown Hare too.

We ended our topic with a special circle time which we all enjoyed as we got to bring in our favourite toy from home or a photo of our families to share with everyone.
