

Wow what a fun and exciting start Pre-school have had this term. We explored our new learning environment and started to develop a sense of independence by choosing the learning activities that interested us.

Our first topic was 'All about me!' where we learnt about what made us special and we celebrated our differences. We were even able to build houses for our family members to live in. We painted portraits of ourselves and started to make friends and collaborate together.

We enjoyed learning the story Owl Babies, we became confident in re-telling the story and we used Makaton to support us in this. We even rescued the owls and counted their spots.
