

What a fantastic start to our time in Reception!

We have comfortably settled into our wonderful and new learning environment, where we have been exploring all the learning opportunities it has to offer.

We delved into the topic of 'Magical Me' by building positive relationships with the adults and our peers and have begun learning collaboratively!

We discussed how we ask for help in scary and serious situations and became brilliant at giving details on the phone to those who help us when we call 999.

We had a blast during our 'Bring Your' events, where we spent the morning with our special ladies, men and grandparents. We shared the fantastic skills we had been learning in Phonics and Independent Learning time. During the week, we turned plain biscuits into delicacies, designed the best paper aeroplanes and went on an adventurous autumnal bug hunt. To top it off, in our final week, we had special visitors from the RSPB to teach us about our five senses. We used all our senses (excluding taste) to explore our Outdoor Classroom. What an eventful first term it has been!
