

## Year 2's Term 1 Best Bits!

We have loved learning all about different kinds of transport from a long time ago and nowadays. Did you know, a long time ago, buses were called an 'omnibus' and pulled by two strong horses!

This term our family homework challenge was to create a futuristic mode of transport. Congratulations to our friend Samuel who was Year 2's winner! He created a fun video to go along with his Lego creation, which had us all laughing out loud!

We are now experts at making paper aeroplanes and had a competition - well done Shayla who won! We now know how to make a sturdy paper plane and also a boat that can float for Paddington. Quite a few of us would like to be engineers now!

We LOVED riding our bikes and scooters during our 'Wheelie Good Time' event, we had a go on the bike track and we are becoming much more confident on it.

In Maths we have been super and tried our best when writing numbers to 100 - our aim is read and write all numbers to 100 next! We impressed our teachers with our perseverance when learning our times tables - a few of us took some extra learning home to do and it is proudly stuck on to Mrs Little's fridge in 2RL! We love going to Mr Meredith's office for a prize, especially when we get 10 out of 10 for our spellings.

We have also been writing letters to our friends in a school in Ghana, Africa and a school in Plymouth, Massachusetts. We have pen pals all over the world! We are going to write letters and postcards to our teachers over half term - we can't wait until they arrive, and we can read them!

Our American pen pals! We learnt about the Mayflower ship that sailed from Plymouth, England to Plymouth, Massachusetts and decided to tell our pen pals all about ourselves and what it is like to live in Plymouth, England! We can't wait for their replies!
