

Year 4's Term 2 Best Bits!

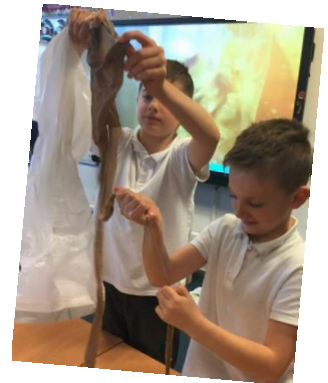

We have loved continuing to learn about 'What's on the Menu' focusing on food and where it comes from. We have developed our map skills by using atlases and focusing what countries use Fairtrade!

What a fantastic opportunity we had to work alongside the Exeter Chiefs for 5 weeks. We participated in the 'Tackling Health' workshop and focused on how to have a healthy, balanced diet. We

also learnt new skills to develop into the game of tag-rugby and 20 lucky children went to represent our school in Exeter for the tournament.

Our Science investigation was by far one of our favourite highlights this term as we learnt all about our digestive system. We collaborated fantastically and can now recall the process of our digestive system.

This term our family homework was to 'grow our own food'. Congratulations to Ava who managed to go to her Nan's allotment to grow sprouts, potatoes and turnips.
