

WOW Moments

In the Early Years setting, we offer opportunities to extend and enhance the curriculum through termly visitors, trips, the use of school grounds including the Outdoor Classroom and surrounding flower meadow. This also includes clearly planned local, national and international activities. In the Early Years, we offer free trips and visits to all of the children. We strive to provide each individual child with an equal opportunity to thrive and benefit from the enriched and creative curriculum that we deliver. We work closely with Parents/Carers and invite them to come along on various trips throughout the year to engage and support their children.
