

Nursery's Term 3 Best Bits!

Wow! What a fantastic start to 2019 we have had. We have really enjoyed exploring our new topic *Commotion in the Ocean*, we have read the book and loved looking at all the different sea animals in it!

We have loved making jellyfish in a variety of ways. We used card and tissue paper for the tentacles. We have also used our hand prints!

During this term, we really enjoyed exploring a range of different textures. We especially loved getting messy with the slime!

In maths, we have loved practicing our building skills, using our imagination. We have made robots, cars, pigs and castles!

We have really enjoyed taking part in our Learning Together at Home tasks this term. We have been super busy, creating fish pictures, making slime and playdough and exploring a range of different textures.
