

Year 4 - Term 4 Best Bits

Both of our Science days were a blast! We loved taking part in different experiments especially making our own bath bombs and kazoos! We also were very lucky that Scientists from all over the South West came to visit us!

Howard Carter travelled through time to visit us in Year 4! He told us in his own words, how he discovered the tomb of Tutankhamun and showed us how to carefully look for artefacts. We also managed to crack his secret hieroglyphic code!

For World Book Day this year, we travelled around the different continents and completed a range of activities. Our continent in Year 4 was Asia. Our Chinese themed decorative door was fantastic and we reflected on how fortunate we are to read!
