

Year 2's Term 5 Best Bits!

Our topic this term has been 'Famous People from the Past' and looking at how people have influenced our lives today. We will continue to look at this topic next term too but have made a cracking start...

We looked at how people of different religions lead a good life when we visited St Budeaux church. We were very respectful and enjoyed talking to the reverend about special celebrations.

This term we have learnt about Sir Francis Drake, Queen Elizabeth and Christopher Columbus. One afternoon, we had a mysterious delivery... After using inference and questioning

skills we discovered that the artefacts belonged to Sir Francis Drake!

Then, in the same afternoon we walked to St Budeaux church where Sir Francis Drake married his wife.

In English this term we have looked at a beautiful

African story called 'Mufaro's Beautiful Daughters' and wrote exciting letters and diary entries. To get into part, we dressed up in traditional African clothing and skyped our friends in Ghana.

In Science, we have looked at food chains. We even watched tadpoles transform before setting them free. We now know the importance of producers and consumers.

Finally, we have been very busy becoming Secret Agents after completing Secret Agents Tasks (SATs). We loved completing these missions and were celebrated in assembly and with a SATs party!
