

Reception Term 6 - Best Bits...

Wow! Term 6 has been awesome.

We kick started the term with a visit to Budshead woods whereby we searched high and low for lots of creepy crawlies hiding in their natural habitat. We were able to compare the similarities and differences of various minibeast and created a tally to record how many bugs we could find.

In week 3, we were visited by a dental nurse who was able to talk to us about the importance of oral health and hygiene. She explained what we needed to do to keep our teeth nice and healthy and even challenged us to impress her with our super brushing skills!

Throughout term 6, we took part in an intergenerational project with Chatsworth Care Home. Over the course of the term, a small number of children built relationships with some of the local residents of Chatsworth. They took regular visits to the home and even invited our elderly friends into our classrooms to show them our super learning.

Finally, at the end of term 6 we were able to reflect on the amazing year we have had in Reception. We have been on several brilliant trips including; Paignton Zoo, Living Coasts and Bovisand Beach, alongside this we have been able to engage with a range of visitors such as Cats Protection, Dental Nurses and even the Police! We have had a truly fantastic year and thank you all for being such superstars!
