

Term 1: Pre-school's Best Bits

WOW, what a fun and exciting start Pre-school have had this year. We explored our new learning environment and started to develop a sense of independence by choosing the learning activities that interested us.

This term we have been learning why 'It's good to be me!' We have discovered what makes us special and compared our similarities and differences.

We have been drawing self-portraits, building houses, caring for each other in the home corner and re-telling the Owl Babies story.

We showed off our amazing catering skills by cooking up some delicious treats for our families. Our afternoon tea party was a wonderful experience as we got to celebrate our families.

This term we have had lots of great opportunities to move our bodies and develop our core muscles. We have been moving our body to music through dance. We have been travelling and learning new skills in PE. We look forward to learning more about our bodies during our Multi skill sessions with PAFC in Term Two.
