

# Receptions Term 1 Best Bits!

What a busy, but fun-filled start we have had to our time in Reception! We have been following our golden rules, settling into our new learning environment and exploring the different learning opportunities inside and outside has to offer. Our Phonics superstars have been introduced to all phase 2 sounds and are now beginning to use their sound fingers to segment and blend simple CVC words. Our topic this term is 'Magnificent Me', we have been building positive relationships with the adults and our peers during independent learning time, where we have shown great collaboration skills! We were lucky enough to invite our special ladies, men and grandparents into school during our 'Bring Your' events. We showed them how we have settled into school and what fantastic learning we do in Phonics. Followed by fun activities such as decorating biscuits with yummy treats, designing the fastest paper aeroplane and turning pipe cleaners into flowers. More recently, the children have been noticing a change in our environment, we decided to go on an adventurous autumnal walk. We used our observational skills to notice the leaves are changing colour and falling off the trees and it is getting darker and colder. We then used our leaf collection to decorate our classroom doors, they are looking fantastic! We are very much looking forward to what term 2 has to bring, after an eventful first term.
