

Year 5 Term 1 Best bits

We have had an amazing start to our Year 5 journey!

In our Topic learning, we quite literally 'launched' brilliantly into our Topic: Mission to Mars when we designed houses on Mars. We had to carefully consider how we would breathe, grow food, explore and everything in between which set us up for a super term of space themed learning.

Throughout our English learning, we have had a journey through time, starting high in the branches in Sherwood Forest then blasting off to the futuristic world of Pandora. We have written a descriptive narrative of Robin Hood's adventures as well as an information report about Pandora and its wonderful features.

Our Maths learning has involved a range of skills from identifying Place Value to Roman Numerals and practicing our mental arithmetic skills.

We also had the amazing opportunity to visit Marine Academy Plymouth where we experienced the creative arts and design. Whilst there, we were able to 'paint to music' in the style of Kandinsky and use our problem solving skills to

build an LED light using circuits and acrylic.

We have thoroughly enjoyed reading our class books: 'Phoenix and Cosmic'. We have been able to apply our reading skills to the texts so that we can build on our knowledge. We cannot wait to swap books after Half Term.

What an amazing Term it has been!
