

## Term 2: Pre-school's Best Bits

Term 2 has been a magical adventure, we have made wishes, cast spells and mixed up our own magical potions.

This term we have been learning 'Magical Mysteries'. We have collaborated with our friends to role-play being wizards and witches in our outdoor house. We have also made wands to cast our spells.

We have to say a huge thank you to 'Emazdad' the magician. The magic show was spectacular. He even brought a few friends along to help. We had so much fun seeing magic tricks performed, we even had a go ourselves.

PAFC have helped us to continue to stay active this term.

Thanks to their multi skills sessions, we have improved our balance, ball skills and found new ways to move through new games. We definitely have some budding footballers in Pre-School.

For Math's we have been learning a new number each week, with the help of numberblocks. We are becoming number masters after learning how to count, make marks to represent numbers and even answering some problem quesitons for numbers one to five.
