

Nursery's Term 3 Best Bits!

What a fantastic term we have had in Nursery! We really enjoyed reading our topic book 'Commotion in the Ocean,' and talking about all of the animals we would find in the sea.

We have really loved exploring a range of different books relating to our Under the Sea topic and have looked at these independently and have even got our teachers to read them to us!

We have spent this term creating our very own sea creatures and our favourite to make were jellyfish!

What a busy and amazing term we have had in Nursery. We hope you all enjoy your break and are ready for lots more exciting learning next term!
