

Term 4: Pre-School's Best Bits

In Pre-School we have certainly had our taste buds tingling, thanks to our topic this term 'My tingling taste buds'. It all started with our WOW moment, where we were greeted with a variety of foods. All of the children pushed themselves out of their comfort zones and tried food that they had never tasted before.

The children in Pre-School really enjoyed taking on the role of a 'Shop Keeper' and customers in our own shop, as well as being Chefs in our kitchen. The children discussed the foods that they liked and disliked, and prepared their favourite meals. Furthermore, they observed the changing effects of food over time; they watched some food decay and allowed chocolate to melt in their palms.

Maths has played an important part in our topic this term. From counting food pieces from 'The Very Hungry Caterpillar', to sorting and using our new foodie maths resources. We used vocabulary such as 'more' and 'less' to compare the amounts. Some children even checked and reasoned this by counting and finding matching numerals to order them. We have also thought very carefully about the shapes and patterns we see around us. When seeing the 'Hungry Caterpillar' become the beautiful Butterfly, we used shapes and patterns to make our own structures and artwork.

An amazing highlight from this term has to be taking part in World Book Day. It was a brilliant day where everyone dressed up as their favourite book characters and took part in different activities linked to the story for

the day, 'Giraffes can't dance'. We also shared, discovered and listened to some new and different stories with our friends.
