

## Year 1 Term 4 Best Bits!

### Science Day

On Science Day we had an amazing time dissecting a flower. We used magnifying glasses to take a closer look at the different parts and learnt about what they do. Did you know that the stem carries nutrients and water from the roots to the leaves?

### World Book Day

What a fun time we had on World Book Day! We enjoyed dressing up as our favourite characters and making our own class lanterns based on two of our favourite texts.

We visited different classrooms and completed activities linked to British authors.

### Growing our own Butterflies

We have become experts at knowing the life cycle of a butterfly and have been looking after our very own! We have been watching them change daily and cannot wait to set them free in our flower meadow.

### We're Going on a Bear Hunt

We launched into our learning by going on our very own bear hunt. You will not believe this but... WE FOUND A BEAR hidden in our outdoor area! We ran all the way back to class and decided that we would never go on a bear hunt again!
