

Year 2's Term 3 Best Bits

What a busy term Year 2 have had!

We started our term by learning to write detailed instructions after making our very own healthy smoothie.

We put our cooking skills to the test with CaterEd and made vegetable griddle cakes, learning how to carefully and safely use a knife to chop vegetables. We made sure to make a healthy meal after learning about balanced diets and the 'Eat Well Plate'.

To understand the importance of hygiene and hand washing, we are experimenting what will happen to bread that has been touched with clean and unclean hands. When we come back in Term 4, we can see what has happened to our bread. Check it out on our class windows!

The infection control unit from Derriford hospital kindly lent us a light box and gel to test our skills at handwashing. We soon learnt we often forgot our nails so have been learning the NHS top tips.

We ended this Term reading *The Bear and the Piano* by David Litchfield. We have enjoyed using expanded noun phrases, fronted adverbials and similes to make our character and setting descriptions truly amazing. We have even been reading snippets of Harry Potter to inspire us!

Our favourite best bit was meeting Anthony Jinman, the lead explorer to Antarctica. We enjoyed following his adventure in school and learning about penguins and how animals have adapted to their environment. This really inspired us that we can do anything we put our minds to.

In Maths, we have smashed multiplication and division learning and lots of us are now confident with the 2, 3, 5 and 10 times tables.

As part of our 'How are you?' Topic, in PE we have been learning our muscles and how different exercises use different muscles. We practiced some simple exercises to strengthen our muscles.
