

## Year 3 - Term 3 Best Bits!

We have really enjoyed starting to learn about 'Inventions that Changed the World'. We recently held an Inventions Fair; our budding inventors shared their creations, which they designed to solve everyday problems.

This term, we have been lucky enough to have the Exeter Chief's coaches visit us. They have taught us about the importance of looking after our bodies by eating healthily and doing plenty of exercise. We've had great fun playing tag rugby and even got the chance to make some delicious smoothies in a 'Dragon's Den style' competition!

In English, we have thoroughly enjoyed exploring the texts *George's Marvellous Medicine* and *Fly Eagle Fly*. We have been inspired by the African tale *Fly Eagle Fly*. It is an inspiring and uplifting tale of fulfilment and freedom, brought to life by some stunning illustrations. We were challenged to retell the story from the eagle's perspective and produced some powerful pieces of writing that we are very proud of.

During Music lessons, we are becoming confident musicians through our weekly recorder sessions. We've begun to identify the beat within songs and have had great fun learning how to keep a rhythm by dancing along to music and performing for our classmates.

What an exciting term it has been! We can't wait for Term 4!
