

Year 4 - Term 4 Best Bits!

Wow what a Term 4 we have had! This term we were lucky enough to have some exciting visitors and trips. During World Book Day week, we were visited by the incredible author Emma Carroll whose book we have been reading in class. She inspired us with her enthusiasm and love for reading as well as giving us tips of how to create a story. On World Book Day, the children travelled around the school completing a variety of activities linked to specific authors such as David Walliams, J.K Rowling and Julia Donaldson.

In Science this term, we have been investigating a variety of scientific processes such as, whether a wet towel dries quicker in different temperatures and what type of chocolate melts the quickest. We have made predictions, asked questions and connected with the wildlife in our community when identifying which living things are commonly found. We even had chance to dive into a world of forensic science and solve the case of the stolen lunch.

One of our trips this term was a taster session at Marine Academy. We were lucky enough to create and perform a piece of drama linked to the book Esio Trot by Roald Dahl and learn some Spanish. We had great fun and collaborated excellently.
