

Year 6 Term 4 Best Bits!

What a great, fun-filled Term 4 we have had in Year 6! Every single one of us are looking forward to the Easter break before we come back in Term 5 and smash our End of Key Stage 2 assessments!

During our English unit, we created our own biography based on an iconic person from history. The majority of us chose to write about fictional people that were involved in the war based on the real life stories of figures such as Adolf Hitler, Anne Frank and heroes that fought in World War Two. In

our Topic learning, we also had the chance to improve our biographical skills by writing our own about World Games gymnast Isabel Haigh, who visited our school!

Another highlight of Term 4 was World Book Day! During the day, we visited different classes and participated in activities that linked to the theme of 'Great British Book Off', celebrating the many famous authors who come from the UK! Our costumes looked amazing and

it we loved celebrating how amazing reading is.

We were also fortunate to take part in Science Day, where we participated in our own investigation creating CD hovercrafts before we had a visit from Dartmoor Zoo where we got to hold stick insects, geckos and snakes to learn more about how evolution works. We even got to try out some fancy medical equipment during the Medical Maverik workshop!

We are looking forward to Easter and can't believe how fast this year has gone already - we are already two-thirds of the way through our final year at Ernesettle Community School!
